A current student looking to major in computer science. I have ongoing experience in software development as a freelancer. During my previous employment and volunteer experiences, I have consistently demonstrated my ability to work well in a team. Additionally, I am excellent with analytical thinking, problem solving, and communication. I am strongly interested in further developing my existing skills as well as learning new technologies.

Skills Summary

Full-stack development

Proficient in the development of front-end and back-end solutions. Experience in creating intuitive and responsive user interfaces. Used a variety of technologies to create dynamic web content.

Desktop development and scripting

Capable of developing programs ranging from simple scripts to larger applications. When possible, I tend to focus on creating well-structured, efficient programs.

Linux

Years of personal experience using different distributions of Linux. Very familiar with the use of the command line and Bash. Experience in operating a Linux server.

Work Experience

2020/04 - Present	Freelance Software Developer Worked individually or in a small team to develop desktop applications and web applications according to client specifications.
2016/06	Calgary Stampede Work Experience Program <i>Boys and Girls Clubs of Calgary, Calgary, AB</i> Worked in a team of six under supervision to patrol a designated area during the Calgary Stampede event and ensure that the area remained presentable.
