A current student looking to major in computer science. I have ongoing experience in software development as a freelancer. During my previous employment and volunteer experiences, I have consistently demonstrated my ability to work well in a team. Additionally, I am excellent with analytical thinking, problem solving, and communication. I am interested in further developing my existing skills as well as learning new technologies.

## Skills Summary

---

### Full-stack development

Proficient in the development of front-end and back-end solutions. Experience in creating intuitive and responsive user interfaces. Used a variety of technologies to create dynamic web content.

### Desktop development and scripting

Capable of developing programs ranging from simple scripts to larger applications. When possible, I tend to focus on creating well-structured, efficient programs.

### Linux

Years of personal experience using different distributions of Linux. Very familiar with the use of the command line and Bash. Experience in operating a Linux server.

## Work Experience

---

<b>2020/04 - Present</b>	<b>Freelance Software Developer</b> Worked individually or in a small team to develop desktop applications and web applications according to client specifications.
<b>2016/06</b>	<b>Calgary Stampede Work Experience Program</b> <i>Boys and Girls Clubs of Calgary, Calgary, AB</i> Worked in a team of six under supervision to patrol a designated area during the Calgary Stampede event and ensure that the area remained presentable.
