Email	work@jasonn.dev		

A current student looking to major in computer science. I have ongoing experience in software development as a freelancer. During my previous employment and volunteer experiences, I have consistently demonstrated my ability to work well in a team. Additionally, I am excellent with analytical thinking, problem solving, and communication.

Skills Summary

Full-stack development

Proficient in the development of front-end and back-end solutions. Experience in creating intuitive and responsive user interfaces. Used a variety of technologies to serve static files as well as to create dynamic web content.

HTML	CSS	Javascript	NodeJs
PHP	Python	C++	

Desktop development and scripting

Capable of developing programs ranging from simple scripts to larger applications.

C	C++	C#	Python
Bash

G++

Work Experience

- | | |
|--------------------------|--|
| 2020/04 - Present | Freelance Software Developer
Worked individually or in a small team to develop desktop applications and web applications according to client specifications. |
| 2016/06 | Calgary Stampede Work Experience Program
<i>Boys and Girls Clubs of Calgary, Calgary, AB</i>
Worked in a team of six under supervision to patrol a designated area during the Calgary Stampede event and ensure that the area remained presentable. |

Education

- | | |
|---|---|
| 2020/09 - 2024/04
(Anticipated) | Bachelor of Science
<i>University of British Columbia, Vancouver, BC</i> |
| 2017/09 - 2020/06 | Alberta High School Diploma
<i>Sir Winston Churchill High School, Calgary, AB</i> |
| 2018/02 - 2020/05 | International Baccalaureate Diploma Programme
<i>Sir Winston Churchill High School, Calgary, AB</i> |

Volunteering

- | | |
|--------------------------|---|
| 2018/02 - 2020/02 | Volunteer Churchill
<i>Sir Winston Churchill High School, Calgary, AB</i>
Participated in a variety of community-oriented projects as a volunteer. |
| 2015/07 - 2019/07 | Pool Assistant/Program Assistant
<i>Village Square Leisure Centre, Calgary, AB</i>
Assisted in running day camp programs and swimming lessons as a volunteer. Worked directly with project leaders, supervisors, and other volunteers. |

Activities

- 2020/05** **Cyber Castors CTF 2020**
<https://castorsctf20.ctfd.io/>
Wrote scripts to automate interactions with a server to solve challenges under time constraints. Reverse engineered programs through source code or disassembled binaries without symbols. Identified and exploited security vulnerabilities from disassembled binaries.
- 2017/09 - 2020/02** **Vex Robotics Club**
Sir Winston Churchill High School, Calgary, AB
Wrote programs which interacted with the Vex API to receive user input and relay instructions to motors. Designed programs for storing and implementing predefined autonomous movements, and wrote scripts to facilitate modification of autonomous program files.
- 2019/09 - 2019/10** **PicoCTF 2019**
<https://2019game.picoctf.com/>
Solved challenges relating to a wide variety of cryptographic algorithms. Reversed engineered programs from source code or disassembled binaries. Identified and exploited security vulnerabilities in web applications and disassembled binaries.

Projects

- 2020/06 - Present** **CTF Writeups**
<https://github.com/Green-Avocado/CTF.git>
Documentation of attempts at CTF challenges and in-depth explanations of solutions.
- 2020/05 - Present** **Resumes and CV**
<https://github.com/Green-Avocado/Resume.git>
LaTeX source code for all my resumes and my CV.
- 2020/03 - Present** **Canada Amateur Radio Advanced Guide**
<https://github.com/Green-Avocado/CA-ham-radio-advanced-guide.git>
Detailed guide covering all the topics necessary to achieve an advanced qualification in Canadian Amateur radio.
- 2020/05 - 2020/06** **COVIDPing Image Generator**
<https://github.com/Green-Avocado/covidping-image-generation.git>
Web application for generating and displaying Twitter cards for COVID-19 statistics in US states.
