A current student looking to major in computer science. I have ongoing experience in software development as a freelancer. During my previous employment and volunteer experiences, I have consistently demonstrated my ability to work well in a team. Additionally, I am excellent with analytical thinking, problem solving, and communication. I am interested in further developing my existing skills as well as learning new technologies.

Skills Summary

Full-stack development

Proficient in the development of front-end and back-end solutions. Experience in creating intuitive and responsive user interfaces. Used a variety of technologies to create dynamic web content.

Desktop development and scripting

Capable of developing programs ranging from simple scripts to larger applications. When possible, I tend to focus on creating well-structured, efficient programs.
